Once In Yaissor [Win/Mac]

- A deep story full of subtle references - Characters that have already been developed - Great humour - High style - Intimate topics - No annoying animations - A tragic story, but hey, it's not the end of the world! No one has an opinion on this matter. Everybody has his or her own way of perceiving life. Most people have now turned into YouTubers, streamers and other professional people, most people in these people are not working as hard as they could. So, we are sorry to say that the world was not changed much, because people, who chase this job, should really chase something else. In Yaissor it is YouTubers and some of them that are actually working, for them it is the best place to produce and they have another dream, they want to be good people, to become a guru, an elite (sic) of knowledge and the society, which they previously wanted to be eliminated. In YouTubers' place it's Nobugs, a story about a [censored] guy who will be forgotten, just another Yuwi guy. This game is a parody, a parody about the YouTubers and also about the internet. What is it about? Yaissor is the story about your creation. You are

a YouTuber, a Youtuber that has just come back after you have changed your attitude towards YouTube. Of course, you have an advantage, but you know you can't just buy favours. Your task is to go around the world, in order to make Youtube. Traveling through the world, you will have the opportunity to meet many new people and learn a lot. Of course, this is not easy and not going to be easy. Your task is to get acquainted with people. If there is a person who deserves some favours and you can't just buy them, you will have to find ways to get the favours. - Stickers - Instagram - TikToks

What's new:

- Guilherme dos Santos Travel Guide Share At the beginning of the year, I decided to give visiting the spa and crystal waterfalls in a city I'd only recently read about my one of my favorite writing muses, is the one of visiting a place where I really enjoyed the last time I was there. And the place that I very much enjoy visiting once in a while is Yaissor, a city located in the state of Espirito Santo. Yaissor is a beautiful city, with an awesome population. The city has gained great notoriety not only because of the waterfalls visitable by crystal clear water, and the hot springs baths. Its also highly recommended and known for being not only the "cradle of the state of Espirito Santo", but also "of the country's wax museum". Having been away from Yaissor for almost 4 years, I found myself still traveling around Brazil. And when I say traveling, I don't really mean just going to a new place, I mean I was looking for some place with lots of close surroundings and nature to reach isolation once again and just relax. Having only been in Yaissor for 1 day, I wasn't really prepared for some of my recommended hotspots, and some of the networks I've been building were due for an update. But this is one of those stories where things done in a fast manner go very smooth, and leave me very satisfied. Thanks a lot to these folks for their advices and suggestions, and that these places are still a great way to experience the areas around these cities. Now, let's talk about Yaissor. The story starts with getting yourself from Rio there, this could be done in 2 ways, either flying or taking a bus. For reasons of budget and available time, I chose the bus, and it took me back in a little over 4 hours, which is pretty much the average transit time between the city and Rio, so as long as all your plans go well it shouldn't be a problem. Buses leave almost daily between 5:00 am and 7:00 am, so if we come to an average, one could guess that the average speed would be around 60 km/h or pretty close to that. Seriously when we pass the city in the bus, people don't care if there is a cruise ship somewhere
